

the racing experience

The Serpent Cobra-B TE Team Edition includes the shown new parts as standard in the kit, and also has light alu shocktowers FR and RR, hard coated shock-caps FR and RR and the lower rear wing as standard.

The earlier Serpent Cobra buggies can be updated with below parts as well.
This sheet shows the following upgrades

- new transmission with larger bearings and new system diff-coupler
- larger bearings in up-rights (larger bearings, shafts)
- large bearings in steeringblocks (larger bearings, shafts)

The sheet shows the corresponding steps in the original manual, which are replaced with these new ones.
Below list shows the upgrade sets and new spare parts for same.

Parts-list for Team Edition / Upgrades

1395	Ballbearing 8x19x6 SS (2)	600472	Gear coupler V3	600502	Upright set V2 811
