

Update MANUAL

## Introduction

Welcome to the ever growing team of Serpent 1/12 scale racers. The S120-LT have been developed further into the S120-LTX. Main changes are in the carbon fibre parts. The main pivot point has been moved more forward resulting in a more stabile, and thus faster ride. This manual shows the new parts and the affected manual pages.

Enjoy the build and racing the S120-LTX
