

**NATRIX 748 TC**

- arrowmax titan screws
- setup with arrowmax system
- chassi stiffener
- old differential

The diagram illustrates the chassis of a vehicle with various weight components and their positions. Key labels include:

- TRACK WIDTH 199 mm**: Indicated on both the left and right sides of the chassis.
- WEIGHT grams**: Labels pointing to specific weight components on the chassis.
- WEIGHT POSITION**: Labels pointing to the positions of the weights, each accompanied by a scale from 1 to 5 and a **grams** unit.
