

**NATRA 748**

REMARKS	

A detailed line drawing of a vehicle chassis from a top-down perspective. The diagram illustrates the layout of major components including the engine, transmission, drivetrain, suspension, and wheels. Key measurement points are indicated with arrows and labels:

- Weight Measurements:**
  - TOTAL CAR WEIGHT grams:** Indicated at the top left.
  - WEIGHT grams:** Two labels at the top center and top right, pointing to specific chassis components.
  - WEIGHT grams:** A label at the bottom left, pointing to the front wheel assembly.
  - WEIGHT POSITION grams:** Three labels at the bottom center, each with three circles below it, pointing to the engine, transmission, and rear differential areas.
  - WEIGHT POSITION grams:** A label at the bottom right, with three circles below it, pointing to the rear wheel assembly.
- Track Width Measurements:**
  - mm:** Two vertical double-headed arrows on the left and right sides, labeled "TRACK WIDTH", indicating the distance between the wheels.
