The diagram illustrates the chassis of a vehicle with various components labeled for weight measurement. At the top, two boxes labeled "WEIGHT grams" point to the front and rear engine compartments. On the left and right sides, vertical double-headed arrows labeled "mm" and "TRACK WIDTH" indicate the measurement of the track width. At the bottom, four boxes labeled "WEIGHT POSITION grams" point to the front and rear suspension assemblies, each with a row of five circles below them representing individual weight positions. A fifth box labeled "WEIGHT grams" points to the central chassis area.
