TRACTION: LOW <input type="checkbox"/> MEDIUM <input checked="" type="checkbox"/> HIGH <input type="checkbox"/>		STARTING POSITION	1
TRACK TEMP <input type="text"/>	AIR TEMP <input type="text"/>	FINAL POSITION	1

A detailed line drawing of a vehicle chassis from a top-down perspective. The diagram illustrates the layout of major components including the front and rear engines, transmission, drivetrain, suspension, and wheels. Key measurement points are highlighted with callouts: 'TOTAL CAR WEIGHT grams' at the top center, 'WEIGHT grams' at the top left and top right, and 'WEIGHT POSITION grams' at the bottom left, bottom center, and bottom right. The bottom left and center callouts include a blue dot and the number '25'. On the far left and right sides, vertical double-headed arrows indicate the 'TRACK WIDTH mm', with the value '199' written in blue. Numerous small circles are distributed across the chassis, representing individual weight points.
