

Spyder SRX2 MH Team Edition

Serpent offer the Team Edition version of the Spyder SRX2 MH #500008

The team Edition includes the most used layout and specs

Differences from the Spyder SRX2 MH are:

- carbon fibre shocktowers front and rear
- hard coated aluminium shockcaps front and rear, combined with hard coated shock bodies
- 3-gear laydown transmission only (so no 3 gear upright transmission)

Other key features remain the same:

- hardcoated aluminium chassisplate and kick-up
- slipper clutch
- ball differential
- spring steel transmission parts
- aluminium suspension brackets
- durable moulded suspension parts
- fully adjustable
- high quality polycarbonate body and wing

Manual

The USB manual included shows both transmissison but you only mount the 3 gear laydown one.

The shocktowers are now in carbon but assembly is similar.
